Beginning Pan Pastel Workshop
at
Highland Art Center

Saturday & Sunday
May 18 & 19th
9 AM - 4 PM

Greetings!

I am so excited that you are joining me in what has become one of my biggest passions - ***Pan Pastels***. Pan Pastels have such amazing attributes and believe it or not - an image can be rendered fairly quickly! I look forward to showing you my techniques for blending; creating soft effect and beautiful transitions, bold strokes of color, layering of color on top of color, effect of transparent color and more! This workshop will be great for the beginner and the intermediate artist.

My *goal* is for you to explore this medium without having to buy any supplies *except* a drawing board. ***If you do have your own Pans***, bring them! And I can send you the list of colors we will be using. ***BUT***, for those who don't have Pans, I have enough, and I'll supply the Pastelmat paper we will work on as well. I have some ***pastel pencils*** for use, if you have any, ***bring them!*** Please review the supply list I've attached for more info.

In this class you will learn the difference between regular stick pastels and Pans and then create a portrait of this beautiful Kestrel Hawk. I am so excited to teach this process to you, as my students and I have fallen in love with Pan Pastels!

I can't wait to work with you, and teach you my passion, thank you for signing up.

- Sincerely,
Denise
